“ John and I went to optometry school together from 1974-1978 and even though we haven't seen each other in years we spoke on the phone about 2 years ago and visited about all the fun times we had during our training in Houston. He was a great classmate and by reading the obituary he lived life to the fullest... I just wanted his family to know that he meant so much to the class of 1978 and all the friends he made during our time in Houston. I will keep his family in my prayers during this sad and difficult time.
