Dad was the smartest person that I ever have known, teaching me about numbers at an early age. He was strict and stubborn, but I feel that is how he taught us values to take care of ourselves. He didn't buy us fish, he taught us how to fish! The best time I had in my childhood was spent in our Dodge Champion Motor Home, traveling all over the place. My sister Lori and I were the GPS. We were all so proud that our dad was a mechanical engineer. He was a superhero at AMPI saving one Milk Plant at a time. Life is full of curves and obstacles, my dad had to be patient with me over the years, to become a better son and learn how to control my anger. Over the last decade we would talk on the phone and I would stop by sometimes in my truck. He lived a good long life, and I am so happy that the town of Muenster set him and Ruthie up on a blind date in 1977. Dad had a good wife to share his life with and she always made sure that he was taken care of. I know that he is finally reunited his mother after 82 years. Enjoy ur new life in Heaven and say hello to Uncle Gene for me!

Dad had a wonderful life full of adventure, especially with his job at AMPI, traveling all over to save one plant at a time. Our adventures in the motor home was a fun time. Traveling across the country. Myself and Lori being the map readers or as you call it now a GPS. Life brings us many curves and obstacles that we must overcome. He was a very strict father and I feel, that it made Nadine, Lori, Sharon, myself, and Charlie and Todd very independent and taking care of ourselves in life. I am glad that Dad met Ruthie to share the last part of his life. It was the town of Muenster who set up the blind date in 1977. Thank God they cared enough to hook them up. Life was always a learning experience with Dad and he was the smartest man that I ever knew. His mind sharp until the end. Dad now you can be reunited with your mother after 82 years. God Bless you and please tell Uncle Gene that I said hello!
