“ I’m just learning of this sweet woman’s passing!! She was my art teacher in elementary school and taught my son in second grade until we moved. We reconnected on Facebook a few years ago. I loved her like a momma!! She will never be forgotten!!

“ Our class of 1964 was very close. Karen Jean was a beautiful lady inside and out. Those that came to Saint Jo High from Capps Corner were made to feel like we had gone to class together all our lives. She was fun, loving, artistic and much more. Will miss her a lot. 💕💕💕💕

“ There are so many memories picking one is hard. all good memories. we had a lot of fun in school some of our class will remember when she was asked paint the panther head on top of the field house.. getting Karen Jean Martin on top of the field house was quite a feat cuz she was not a fan of heights, when it came Right down to it. but we coaxed her up there ..... Once we got her situated up there and seated where she felt a little bit more secure she went to work and painted a beautiful panther head... she did good!!
